

Request for Proposals 2025 Residential & Commercial Solid Waste Services #2
Addendum #1

Towns of Surf City, Holly Ridge, Topsail Beach, North Topsail Beach

1. Pass Through Rates: According to Section 6.23 of the published Request for Proposals and other areas, Landfill, Recycling Processing Cost shall be a pass-through expense and not subject to any CPI. It shall be a direct representation of the actual costs occurred for processing of MSW.
2. Compactors: Please DO NOT indicate costs for compactors. These rates will be determined between the vendor and Town based on equipment needs from the private entity serviced by the compactor. It is recognized that not all structural set ups are the same.
3. Seasonal Cart Totals: Please note that Topsail Beach and North Topsail Beach both have the same number of carts that need a second service date per week consistent with their documented numbers of trash and recycling carts. Holly Ridge will not receive a seasonal or second service. The Town of Surf City has an additional 329 units on average that would be considered “seasonal”.
